

ESOTERIC IRIS ANALYSIS WORKSHOP

Saturday 6th October 10am-5pm

The iris is the mirror of the soul.

Can your iris, the coloured part of your eye, reveal information about your personality, talents and gifts?

The colours and markings in the iris of the eye provide us with a map to help us on our path to realise our optimum potential in this lifetime. Iris analysis can help us understand emotional, mental and spiritual patterns. During the workshop we will be peering into the fascinating world of esoteric iris analysis and exploring our own and each others' eyes. Everyone will have their iris photos taken and we will discover what is our constitutional type eg stream, shaker, jewel or flower and what we need to do to develop our skills in order to bring our gifts to the world.

Cost £60 or £50 early-bird if booked by 1st September.
